-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claims 31-53 are pending.

It is noted the amendment of 2/12/04 presents two claims numbered as 35 and no claim numbered as 43. The claims have been renumbered, beginning with the 2nd claim numbered as 35 through claim 42, as 36-43. See 37 C.F.R. 1.126.

It is further noted that claims 51-52 are duplicates of claims 49-50. If either of claims 49 or 51 is amended to read on a different sequence, then additional restriction may be required. For the purpose of the instant restriction, claim 49-52 will be grouped together.

Claim 53 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must refer to the claims it depends from in the alternative. See MPEP § 608.01(n). Accordingly, claim 53 has not been further treated on the merits and is not included in the instant restriction requirement.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Art Unit: 1632

Group I, claim(s) 31, 33-34, 36-42, and 49-52, drawn to a nucleic acid molecule comprising a nucleotide sequence encoding a polypeptide comprising the amino acid sequence of SEQ ID NO: 22 or variants thereof.

Group II, claim(s) 32-33, 35-36 and 43-48, drawn to a nucleic acid molecule comprising a nucleotide sequence encoding a polypeptide comprising the amino acid sequence of SEQ ID NO: 23 or variants thereof.

PCT Rule 13.2 requires that unity of invention exists only when there is a shared same or corresponding technical feature among the claimed inventions. Groups I and II are directed to products, particularly different nucleic acid molecules, having different structures that encode different polypeptides, that do not share a special technical feature. The nucleic acid molecules of Groups I and II do not share a special technical feature since they are different structurally and encode different polypeptides.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Sequence Compliance

The instant application is still not in sequence compliance because the verified statement required by 1.821(f) was not signed by a registered practitioner.
